

**Regional San and EchoWater Project  
Contractor Outreach Meeting  
Tuesday, May 23, 2017  
1:30 pm to 3:30 pm  
SRWTP Commons Conference Room  
8521 Laguna Station Road  
Elk Grove, CA 95758**

The Sacramento Regional County Sanitation District (Regional San) has implemented its EchoWater Project to respond to new discharge requirements at the Sacramento Regional Wastewater Treatment Plant (SRWTP). Contractors are being hired for a variety of treatment plant upgrade projects through several construction contracts ranging in size from less than \$10 million to over \$400 million as part of the EchoWater Project. The combined construction value of all projects is estimated at over \$1 billion. The projects include a number of wastewater treatment processes, pumping stations, site improvements, electrical and control systems, supporting infrastructure, and various treatment facilities rehabilitation projects. While many projects have already begun, there are still some critical contracts remaining. In addition, several other SRWTP construction projects are planned for the next year and will be discussed.

Regional San is holding a non-mandatory, informational Contractor Outreach meeting to provide an overview of the current program, and status, schedule, and planned elements of the EchoWater Project, and to address questions relating to the upcoming pre-qualification packages for the Tertiary Treatment Facility Project and Electrical contractors. Attendance is not mandatory to pre-qualify contractors for future project opportunities, nor will it be considered confirmation that your company intends to bid on any projects.

If you plan to attend, please email Kathy Martin at [martink1@sacsewer.com](mailto:martink1@sacsewer.com) to provide the names of up to two (2) people per company. This information is required to provide access at the treatment plant's security gate. If you do not provide the names of your attendees, they may not be allowed to attend the Open House.
