INTRODUCTION

Invitation – The Sacramento Regional County Sanitation District (Regional San), invites Responses which offer to provide the goods and/or services identified on the Cover Sheet.

Definitions - We intend to express our expectations clearly, and they are to be legally interpreted in our favor. Certain words are used throughout this document

We/Us/Our are terms which refer to Regional San, a duly organized public entity. They may also be used as pronouns for various subsets of the District organization, including, as the context will indicate:

District - Sacramento Regional County Sanitation District
Regional San - Sacramento Regional County Sanitation District
SRWTP - Sacramento Regional Wastewater Treatment Plant

You/Your are terms which refer to businesses having some sort of relationship to or with us. The term may apply differently as the context will indicate. For instance, “you” as a CONTRACTOR will have different obligations than “you” as a Proposer or Supplier will have:

Supplier - A business entity which may provide the subject goods and/or services

Proposer - A business entity submitting a Response to this request for proposal. Suppliers which may express interest in this RFP, but which do not submit a Response, have no obligations with respect to the proposal requirements.

Contractor - The Proposer who’s Response to this RFP is found by Purchasing to meet the needs of Regional San. Contractor will be selected for award, and will enter into a contract for provision of the goods and/or services described in the RFP.

Subcontractor - A company that enters into a business relationship with the Contractor. The Contractor may seek to place employees of the Subcontractor for the services described in the RFP.

Contractor’s Employee - All persons who can be offered to provide the services described in the RFP. All employees of the Contractor and the Subcontractor must be covered by the insurance programs normally provided to persons employed by a company (ex: Worker’s Comp, SDI, etc.).

Request For Proposal (RFP) - This entire document, including attachments.

Response - The written, signed and sealed document submitted according to the RFP instructions. Response does not include any verbal or documentary interaction you may have with us apart from submittal of a formal response. Verbal interactions will not be binding on Regional San or Supplier(s) with respect to requirements stated within this RFP or resulting contractual obligations.

RFP Clarification - Questions regarding this RFP should be directed in writing to the Issuing Officer specified on the Cover Sheet. Answers, citing the question, but not identifying the questioner, will be distributed simultaneously to all known prospective Proposers. Oral answers provided by Regional San or its agents shall not be binding.

DEADLINE FOR PROPOSAL SUBMITTAL: by 3:00 p.m. PST on August 30, 2018

MANDATORY PRE PROPOSAL MEETING: All prospective suppliers are required to attend the mandatory pre proposal meeting. Proposals from any supplier unable to attend the pre proposal meeting will be rejected. The pre proposal meeting will begin at 9:30 a.m. PST on August 7, 2018, Sacramento Regional Wastewater Treatment Plant, located at 8521 Laguna Station Rd., Elk Grove CA 95758.

RFP Amendment - If it becomes evident that this RFP must be amended, we will issue a formal written amendment to all known prospective Proposers.

Proposer Response and Responsibility - We expect you to be thoroughly familiar with all specifications and requirements of this RFP. Your failure or omission to examine any relevant form, article, site or document will not relieve you from any obligation regarding this RFP. By submitting a Response, you are presumed to concur with all terms, conditions and specifications of this RFP unless you have specifically raised objection. Objections we consider excessive or affecting vital terms may reduce or eliminate your prospects for award.

Award - Award will be made to the Proposer whose offer provides the greatest value to Regional San from the standpoint of suitability to purpose, quality, service, previous experience, price, life cycle cost, ability to deliver, or for any other reason deemed to be in the best interest of Regional San. The price sheet for the supplier includes multiple pricing options. Regional San may choose to proceed with multiple contracts if there is reason to believe it provides more assurance of chemical supply. How Regional San proceeds with one or multiple contracts will be up to Regional San management based on evaluation of the proposals and the cost. The result will not be determined by price alone. However, price does matter, and we will be seeking the least costly outcome that meets our needs as we interpret them. Regional San staff may conduct a site visit to evaluate product quality.

Proposal Term- Regional San desires to award a contract for three (3) years with the option of two (2) one- year extensions if conditions and service are satisfactory to both Regional San and the successful proposers. Any extension shall be at Regional San's option, subject to the same specifications, terms and conditions, and agreement between Regional San and the Supplier.

Proposal Execution - This RFP and the Supplier's Response will be made part of any resultant Contract and will be incorporated in the Contract as set forth.

Precedence - In the event of contradictions or conflicts between the provisions of the documents comprising the Purchase Order, they will be resolved by giving precedence in the following order:

- 1) the provisions of the Contract (as it may be amended);
- 2) the provisions of the Proposer's Response (as it may be clarified);
- 3) the provisions of the RFP (as it may be supplemented).

Issuing Officer - The issuing officer and mailing address to send Proposals, question, and all other correspondence concerning this RFP is:

Tamblynn Stewart
Senior Contract Services Officer
8521 Laguna Station Road
Elk Grove, CA 95758
(916) 875-9014 stewartt@sacsewer.com

Supplier Examination of this RFP/Questions - Suppliers shall examine carefully the entire RFP and any addenda thereto, and all related materials and data referenced in the RFP or otherwise available, and shall become fully aware of the system needs through discussion and visits with Regional San. If Suppliers discover an ambiguity, conflict, discrepancy, omission or other errors in the RFP, they shall immediately notify the Issuing Officer of such error in writing and request modification of the document. Modifications shall be made by addenda.

Suppliers requiring clarification of the intent or content of this RFP or on procedural matters regarding the proposal process may request clarification by contacting Tamblynn Stewart at stewartt@sacsewer.com

SUBMISSION OF PROPOSALS - Proposals should be prepared in such a way as to provide a straight forward, concise delineation of capabilities to satisfy the requirements of the RFP. Expensive binding, colored displays, promotional materials, etc., are not necessary or desired. Emphasis should be concentrated on conformance and clarity of content.

Supplier proposals shall be completed in all respects as indicated. A Proposal may be rejected if it is conditional or incomplete, or if it contains irregularities of any kind.

Proposals which contain false or misleading statements, or which provide references which do not support an attribute or capability of the proposed system may be rejected. If, in the opinion of Regional San, such information was intended to mislead Regional San in its evaluation of the Proposal and the attribute, condition or capability as a requirement of the RFP, the proposal shall be rejected.

The proposal must be signed by an individual who is authorized to bind the proposing firm contractually. The signature should indicate the title or position that the individual holds in the firm. Firms who sign their contracts with the name of the firm must provide the name of the corporate officer for signature validation by Regional San. All unsigned Proposals shall be rejected.

If the sum retained by Regional San is not sufficient to discharge all such liabilities of Supplier, Supplier shall continue to remain liable to Regional San until all such liabilities are satisfied in full. No failure by Regional San to withhold any payment as specified shall in any manner be construed to constitute a waiver to any right to damages or any right to any such sum.

Integration: This contract constitutes the entire contract between Regional San and the Supplier regarding the subject matter of the contract. Any prior agreements, whether oral or written, between Regional San and the Supplier regarding the subject matter of this contract are hereby-terminated effective immediately upon full execution of this contract. No modification or amendment to this contract shall be valid unless it is set forth in writing and is signed by the parties hereto.

Fixed Price Deliverables: This contract consists of the delivery of specific results (a “Deliverable”) by the Supplier. Each Deliverable must be separately priced in the proposal. Invoices for partial completion of a Deliverable will not be paid. Invoices for a completed Deliverable may be submitted only after the Supplier has received written acceptance from Regional San.

Insufficient Information: If a Supplier submits insufficient information within the proposal, such that Regional San is unable to properly evaluate the proposal, Regional San has the right to require additional information, as it may deem necessary after the time set for receipt of proposals.

Contract Negotiations: Regional San reserves the right to add terms and conditions during contract negotiations. These terms and conditions will be within the scope of the Request for Proposal.

Audits and Records: Upon Regional San's request, Regional San or its designee shall have the right at reasonable times and intervals to audit, at Supplier's premises, Supplier's appropriate records as Regional San deems necessary to determine Supplier's compliance with legal and contractual requirements and the correctness of claims submitted by Supplier. Supplier shall maintain such records for a period of four years following termination of Agreement, and shall make them available for copying upon Regional San's request at Regional San's expense.

Prior Agreements: This Agreement constitutes the entire Agreement between Regional San and Supplier regarding the subject matter of this Agreement. Any prior agreements, whether oral or written, between Regional San and Supplier regarding the subject matter of this Agreement are hereby-terminated effective immediately upon full execution of this Agreement. No modification or amendment to this Agreement shall be valid unless it is set forth in writing and is signed by the parties hereto.

HIGH CALCIUM QUICKLIME

INTENDED USE, SPECIFICATIONS, AND OTHER CONDITIONS

Regional San's Use of High Calcium Quicklime

Pebble High Calcium Quicklime (Calcium Oxide - CaO) will be used to provide alkalinity for nitrification at Regional San's new Nitrifying Sidestream Treatment (NST) and Biological Nutrient Removal (BNR) processes. Alkalinity will only be added at NST to meet demands throughout the plant. Regional San anticipates requiring Quicklime under this contract starting from approximately January 2019. However, it is anticipated that Regional San's Contractor will be purchasing High Calcium Quicklime separate from this contract to initially fill up two silos with 112 tons per silos for System Commissioning in October 2018.

The estimated Quicklime quantity required/usage is summarized in the table below. These quantity estimates are not guaranteed and there shall be no minimum or maximum yearly purchase obligation. They are used for evaluating proposer's ability to meet chemical demands and price estimates. Contracts for delivered product may be divided between up to (2) suppliers or awarded to a single contractor at 100% based on the responses to this RFP.

	Quantity of High Calcium Quicklime (Tons)
Annual Total Usage Range	3,000 – 6,000
Daily Usage Range	8 - 16

Specifications

- Quality:** The High Calcium Quicklime delivered shall meet or exceed applicable provisions of the American Water Works Association Standard for Quicklime and Hydrated Lime (AWWA B202-13 and all subsequent revisions or corrections). Regional San may require an affidavit of compliance with all applicable requirements of the standard. Failure to provide such affidavit within a reasonable time of the request shall be cause for rejection of the bid or termination of the supply contract. The proposal should also include a safety data sheet (SDS) and the most recent representative chemical and sieve analysis report of the Quicklime to be supplied, as prepared by a reputable outside laboratory or proposer's in-house laboratory if ISO-certified. These sheets should be representative of the chemical used for the completed cost response page.
- Physical Requirements & Gradation:** The Quicklime shall be 3/8" minus gradation and shall be suitable for handling by pneumatic conveying and dry feed equipment. Quicklime pebble shall be crushed and screened so that none shall be retained on a 3/4-inch (19-mm) sieve and not more than 5 percent shall pass through a No. 100 US standard sieve on shipment. Finished product containing fly ash or other by-products from the lime kiln tailings shall not be acceptable.
- Chemical Requirements:** The Quicklime supplied shall be freshly burned, highly-reactive, and substantially free from carbonate solids and siliceous residue.
 - Calcium Oxide (CaO) & Silica (SiO₂) content:** The Quicklime shall be 92% CaO as a minimum and shall contain no more than 1.7% SiO₂ in composition. Available CaO content shall be determined by the rapid sugar method as specified in Section 5.3.2 of AWWA B202-13. Proposer

shall report the minimum CaO and maximum SiO₂ percentage that will be guaranteed for delivered product under this contract.

- b. **Slaking Rate:** The minimum temperature rise, after three minutes or less on slaking, shall be 54 degree C and the reaction shall be completed within ten minutes. Reaction completeness shall be defined in Accordance with AWWA B202-13.
- c. **Insoluble Material:** No more than 5% (by weight) of the Quicklime supply shall be insoluble matter when tested in accordance with Section 5.5 of AWWA B202-13.
- d. **General Impurities:** The Quicklime supplied under this specification shall contain no soluble matter or organic substances in quantities capable of producing deleterious or injurious effects to public health or water quality that has been treated properly with the Quicklime product. The Quicklime shall not contain any foreign matter that may damage Regional San's equipment or facility.

Other Conditions

- 1. **Product Acceptance** - All bulk shipments must contain the following at the time of delivery:
 - a. a shipping manifest and markings identifying the product, grade, net weight, brand name, and name and address of the manufacturer;
 - b. a properly and uniquely numbered tamper-evident seal. The seal numbers shall be recorded and disclosed on the shipping manifest;
 - c. a weight ticket from a certified weigh station; and
 - d. a certificate of product analysis certifying that the Quicklime shipment meets or exceeds the minimum specifications outlined herein, stating CaO, SiO₂, and unslaked residue content along with slaking rate.

Regional San reserves the right to reject any load, at no cost to Regional San, if any of the above items are missing at the time of delivery or if the load does not meet the minimum physical or chemical requirement of this contract specification. Regional San reserves the right to have any load tested by an independent laboratory prior to unloading into the storage silo without being charged for demurrage if testing duration does not exceed 1 hour.

- a. The Supplier shall provide a replacement delivery truck and product within 24 hours after receiving notification that the bulk shipment is unacceptable. Notice of nonconformance shall be in accordance with Section 5.6 of AWWA B202-13.
- 2. **Deliveries** – Supplier shall provide Regional San with a contact name and phone number for ordering, and an emergency phone number for 24-hour service.

Quicklime shall be delivered to two 112 tons lime storage silos located at 8521 Laguna Station Road, Elk Grove, CA in approximately twenty-five (25) ton dry bulk truckloads with a truck equipped pneumatic unloading system to ensure that additional Regional San time is not spent receiving deliveries. Proposal prices should be based on deliveries of this size or larger. Delivery trucks must be confirmed as dedicated for delivering quicklime via a letter from the Supplier OR each delivery of quicklime must be accompanied by a certificate indicating the delivery truck was washed thoroughly before filled with quicklime to be

delivered to Regional San. The body of delivery truck shall be designed to prevent leakage in transit and shall give protection against precipitation, condensation, contamination, and corrosion. All delivering trucks must conform to all Federal and State specifications.

Pebble quicklime shall be pneumatically unloaded from the bulk transport truck using a hose connection to a 4-inch bronze camlock adapter mounted on the fill pipe at the truck unloading station. The Supplier shall provide all necessary connectors and hoses required to offload the Quicklime shipment via the 4-inch camlock adapter. The pneumatic unloading system shall not exceed the air handling capacity of the lime silo's dust collection system. The Supplier shall assure that the delivery truck and offloading system are compatible with Regional San's lime handling system through site visit and inspection.

Quicklime must be delivered on the date requested by Regional San Staff (normally Monday through Friday) unless immediate deliveries are required by Regional San. If immediate deliveries are required, shipments shall be delivered within three (3) business days of receipt of the order unless directed to deliver later by Regional San Staff. Deliveries shall be started at 8 am at the earliest and unloading shall be finished by 2 pm unless an alternate delivery time is approved in advance by Regional San Staff. The proposal should indicate if the 8 am to 2 pm delivery window will cause any issues. Conditions may arise which require emergency deliveries including holidays, weekends, and night hours within twenty-four (24) hours after notification. Unless approved by Regional San in advance, no delivery can be made if a Regional San representative is not on site.

Suppliers that intend to utilize the services of a third party hauling company for some or all of their deliveries are responsible for ensuring that the hauler they have selected can and will deliver their product to Regional San. Failure to provide this assurance and submit an affidavit may be cause for the proposal being rejected.

The supplier must notify Regional San of any anticipated late deliveries at least 24 hours in advance of the scheduled delivery time and date, unless delivery delays are the result of in-route transportation delays. Delivery times and dates must be coordinated between the successful Proposer and Regional San on a schedule that meets the needs of Regional San but at no time can a delivery occur more than two (2) days after the requested delivery date unless Regional San requests a later delivery. Persistent late deliveries may be used as a basis for contract cancellation.

- Spillage** – The Quicklime shall be delivered free of spillage and in clean condition. The Supplier must be prepared to provide safety training on the safe handling and use of the chemical and emergency procedures in the event of a leak or spill. Should a chemical spill or leak result due to negligence, faulty equipment, or inferior packaging on the part of the Supplier or their agents, the Supplier and their agents must be responsible for cleaning the spill or leakage and for bearing and cost incurred due to spill or leakage clean-up. It must be the Suppliers responsibility to effect immediate containment, clean-up, disposal, and restoration activities in accordance with the individual Facility's requirements and any and all applicable laws and regulations. All material associated with such clean-up operations must be hauled away and lawfully disposed of at no charge to Regional San. The property of Regional San where the delivery is being made must not be used for such disposal. If the spill is NOT cleaned up, Regional San will hire a certified hazardous material handling company to clean up the spill, and the costs incurred, including any fines or penalties which may be imposed by regulating authorities, will be charged to the Supplier. Chemicals must stay in the possession of the Supplier and must not be unloaded until accepted by Regional San. All chemical must be delivered in accordance with Department of Transportation regulations. Any regulatory agency fines or penalties due to Supplier spillage will be the responsibility of the Supplier.

Supplier shall provide a Spill Response Plan that shall include, but not limited to:

- a. Spill containment provisions;
 - b. Spill response team and notification list; and
 - c. Product SDS information that prescribes necessary personal protective equipment (PPE) requirements for safe handling.
4. **Safety Requirements** - The Supplier, their employees, subcontractors, and/or agents must conform to the rules and regulations pertaining to safety established by the California Division of Industrial Safety, and they must adhere to all State, Federal and Occupational Safety and Health Act (OSHA) safety standards
 5. **References** - The Supplier must submit with the proposal a list of a minimum of three references that have purchased similar chemicals and services from the Supplier. The Supplier must provide the company or agency name, contact name, and telephone number for each reference. Due to the quantity Regional San is requesting, Regional San requests that the references are some of the higher quantity users of the chemical.
 6. **Competency of Suppliers** - Before any contract is awarded, the Supplier may be required to furnish a complete statement of financial ability and experience in performing the proposed services. In accordance with the provisions of the California Business and Professions Code and other regulations, the contractor must have and maintain current any and all necessary licenses or certificates.
